

U.S. Department of Energy  
Energy Efficiency and Renewable Energy

# Fuel Cell Summit: Expectations

**DOE partner's with SDO's, energy companies, OEM's, sensor companies and state and local officials to develop hydrogen and fuel cell standards.**

- ❖ Maintain high expectations
- ❖ Provide critical funding
- ❖ Identify priorities and establish plans for accomplishments
- ❖ Accept 360° review
- ❖ Assist adoption at state and local levels

***Government leadership will help advance commercialization of hydrogen fuel cell vehicles and infrastructure by 15 years.***
