**Half-Day Hydrogen Safety Training Workshop on  
Fueling Stations**

**Friday, May 30, 2003**

**1:00 pm – 5:00 pm**

**The Inn and Conference Center**

**University of Maryland University College**

**Adelphi, MD**

In conjunction with Fuel Cells Summit VII and the NHA Hydrogen Safety Codes & Standards Workshop, Air Products Inc. has agreed to offer this popular training workshop in a special half-day format on May 30, 2003, from 1:00 pm – 5:00 pm, following the close of the Fuel Cells Summit and the NHA Workshop. The Air Products Hydrogen Safety Training Workshop on Fueling Stations will educate participants on particular properties of hydrogen and how they relate its use as a fuel.

Space for this workshop will be limited to 40 participants and it is expected to fill quickly. Detailed information about the Air Products workshop is available at the following link:

<http://www.airproducts.com/Products/LiquidBulkGases/Hydrogen/FuelCells/KnowH2owSafetyTraining.htm>.

Inside this page, just click on the [Registration Form](#) link to obtain your registration form. A separate registration fee is required for this workshop and the fee structure is available on the registration form.

Please direct any questions regarding this workshop directly to Air Products at 1-800-704-8343 or email at [KnowH2ow@apci.com](mailto:KnowH2ow@apci.com).
