Subject: Analytical Data Report of Water Samples Collected From BP-5 Operable Unit A Well (C5858), Sample Delivery Group ESL080006, SAF Number F08-034

This letter contains the following information for sample delivery group ESL080006

- Cover Sheet
- Narrative
- Analytical Results
- Quality Control
- Geologic Logs
- Geologic Photos
- Chain of Custodies

Introduction

Between February 26, 2008 and March 11, 2008 groundwater samples were received from BP-5 Operable Unit A Well (C5858) for geochemical studies.

Analytical Results/Methodology

The analyses for this project were performed at the 325 building located in the 300 Area of the Hanford Site. The analyses were performed according to Pacific Northwest National Laboratory (PNNL) approved procedures and/or nationally recognized test procedures. The data sets include the sample identification numbers, analytical results, estimated quantification limits (EQL), and quality control data.

Quality Control

The preparatory and analytical quality control requirements, calibration requirements, acceptance criteria, and failure actions are defined in the on-line QA plan "Conducting Analytical Work in Support of Regulatory Programs" (CAW). This QA plan implements the Hanford Analytical Services Quality Assurance Requirements Documents (HASQARD) for PNNL.

Definitions

Dup Duplicate

RPD Relative Percent Difference

Sample Receipt

Samples were received with a chain of custody (COC) and were analyzed according to the sample identification numbers supplied by the client. All Samples were refrigerated upon receipt until prepared for analysis.

All samples were received with custody seals intact unless noted in the Case Narrative.

Holding Times

Holding time is defined as the time from sample preparation to the time of analyses. The prescribed holding times were met for all analytes unless noted in the Case Narrative.

Analytical Results

All reported analytical results meet the requirements of the CAW or client specified SOW unless noted in the case narrative.

Case Narrative Report

Hold time:

No discrepancies noted.

Preparation Blank (PB):

No discrepancies noted.

Duplicate (DUP):

No discrepancies noted.

<u>Laboratory control samples (LCS):</u>

No discrepancies noted.

Post spike (PS) and post spike duplicate (PSD):

No discrepancies noted.

Matrix spike (MS) and matrix spike duplicate (MSD):

No discrepancies noted.

Other QC Criteria:

No discrepancies noted.

SAMPLES INCLUDED IN THIS REPORT

200 BP 5 OU, C5858 A-Well VZ

| HEIS No. | Laboratory ID | Matrix | Date Collected | Date Received |
|----------|---------------|--------|----------------|----------------------|
| B1T1V7 | 0802035-01 | WATER | 2/22/08 13:20 | 2/26/08 13:50 |
| B1TML2 | 0802035-02 | WATER | 3/10/08 14:00 | 3/11/08 11:30 |

The following analyses were performed on the following samples included in this report:

Anions By Ion Chromatography
Alkalinity, Titrimetic (pH 4.5)
Metals Water by ICPMS
Metals Water by ICPOES
pH of Waters By Electrode
Specific Conductance
Tc_U Water by ICPMS
