

TechRealization

A Day for

**Recognizing Clean Technology
Impacts and Progress in the
Tri-Cities Research District**

August 27, 2008

See the progress...see the future.

Last year Pacific Northwest National Laboratory hosted *TechMagination: A Day for Developing a Clean Technology Agenda*. The goal of this event was to engage industrial, government, local and academic leadership throughout the region to create dialog about clean technology implementation in and around the Tri-Cities Research District (TCRD), which is one of Washington state's 11 Innovation Partnership Zones (IPZ).

A lot has happened this past year, and the TCRD is realizing many exciting developments conceived at last year's event. It's time to reconvene to "realize" the progress, update local and regional stakeholders, and plan the next steps for creating a home for clean technology development and demonstration right here in the Pacific Northwest.

At **TechRealization**, industrial, government, local, and academic interests will together witness the public unveiling of the TCRD master plan, identify priority tenants to recruit into the District, address sector needs so that the TCRD is the obvious place to locate...and open doors to business opportunities.

Keynote speaker, Jackie Kerby Moore, Executive Director of Sandia S&T Park, will kick-off the workshop with her recount of building a research park proximate to a national laboratory. Speakers from several clean technology organizations, including Infinia, InEnTec, and Washington State University Tri-Cities' Bioproducts, Sciences, and Engineering Laboratory will discuss how their innovations can bring clean technology to life in the TCRD.

The Tri-Cities Research District is underway. Clean technologies are part of the plan. Realize the progress during a day of focused learning, dialog, and planning.

Register today for **TechRealization**...and see the future.

Date: August 27, 2008

Location: WSU Tri-Cities
Consolidated Information Center (CIC), Room 120/120A
Richland, WA

Cost: Free to registered attendees*

Register: By August 20, 2008
Online at **www.pnl.gov/TechRealization**

By telephone: 509-375-2068 (Alice Ettesvold)

**Lunch provided by Battelle for registered attendees*

Agenda

8:15 a.m.

Opening and Welcome – Mike Schwenk, PNNL

8:20 a.m.

Keynote Address – Jackie Kerby Moore, Sandia Science & Technology Park

9:00 a.m.

Unveiling the TCRD Master Plan – TVA Architects

10:00 a.m. Break

10:15 a.m.

Washington Clean Technology Alliance Video

10:30 a.m.

Presentations: Clean Technology Innovations in the TCRD – Leaders from area clean technology

11:15 a.m.

Progress in the TCRD – Diahann Howard, TCRD Executive Director and Bob Price, Solaris LLC

noon

Lunch Served*

12:15 p.m.

IPZs Around the State: an update – Julie Anderson, Washington State Department of Community, Trade and Economic Development (CTED)

12:45 p.m.

Facilitated Brainstorming Session – Egils Millbergs, Washington Economic Development Commission

1:30 p.m.

TCRD Report and Plans – Gary Spanner, TCRD Chairman

2 p.m.

Close – Mike Schwenk

**Lunch will be provided for registered attendees*
