

# Instructions for Laptops/Desktops

**Step 1.** Download the image(s) to your computer.

**Step 2.** Follow the appropriate instructions for your platform to set an image as your wallpaper.

## For Mac

1. From the **Apple** menu, choose **System Preferences**.
2. In the window, click **Desktop & Screen Saver**, then click the **Desktop** tab to display just the desktop preferences.
3. Select **Choose Folder**, navigate to and select the folder that contains your image, and click **Choose**.
4. In the right pane, click any thumbnail to place the image on the desktop.

## For PC

1. Right-click on the desktop.
2. Choose **Personalize**.
3. Choose **Desktop Background**.
4. Choose **Browse** to locate the folder containing the image(s).
5. Select the desired image.
6. Set the picture position to **Fill**.
7. Choose **Save changes**.
