

PNNL Approved 3rd Party NFPA 70E Training Providers

Listed below are the current training providers the PNNL Electrical Safety Office has reviewed and approved. The Office believes these providers are acceptable and their training meets the minimum requirements from NFPA 70E.

- NFPA, Live Virtual Training: <https://www.nfpa.org/product/70e-electrical-safety-in-the-workplace-2024-lvt/lv70e24>
- e-Hazard, WEBEX Live-Instructor Low Voltage Training: <https://www.e-hazard.com/arc-flash-training/electrical-safety-training-schedule.php>
- NTT Inc., virtual training: <https://nttinc.com/course/arc-flash-electrical-safety-based-on-2021-nfpa-70e/>
- AVO 70E Training, virtual or classroom training: <https://www.avotraining.com/course-schedule/>
- TPC Training, virtual or classroom training: <https://live.tpctraining.com/>
- OEL Worldwide, Low Voltage Qualified classroom training: <https://oelsales.com/training-services>
- The Electricity Forum, Live Virtual Training: <https://www.electricityforum.com/electrical-training/nfpa70e-training>
- Megawatt Training and Consulting, LLC, instructor-led training using e-Hazard. (*This training can be provided through other vendors/partners.*): <https://megawatttraining.com/sample-page/electrical-safety/>
- HAMMER Volpentest Federal Training Facility Course #43870 NFPA 70E Standards for Electrical Safety Initial Training or #43875 NFPA 70E Standards for Electrical Safety Refresher

As we get requests for acceptance of new training providers, we will review their training and determine if they can be added to this list. To be approved by Electrical Safety, a new course must be an instructor-led live class, either in person or virtual.

Basic on-line self-paced classes will not be approved.

Email [Electrical Safety Mailbox](#) for new requests, attention Jennifer Martin.
