

CENTER FOR  
**Hydrogen**<sup>TM</sup>  
SAFETY  
Connecting a Global Community

**The Center for Hydrogen Safety (CHS)** is the international gold standard for applied hydrogen safety, partnering with organizations to safely deliver clean, affordable, and reliable energy, in addition to promoting hydrogen safety best practices.

**Learn how your organization  
can be a part of CHS.**

# JOIN THE CENTER FOR HYDROGEN SAFETY...

## THROUGH COLLABORATION WE CAN ACCOMPLISH AMAZING THINGS

CHS membership is comprised of **more than 100 companies, organizations, laboratories, universities and government entities** from around the globe. Becoming a member of CHS demonstrates your commitment to the safe design, maintenance and use of hydrogen systems. Together we are working to ensure the safe implementation of hydrogen worldwide.

## JOIN US AND LET'S ACHIEVE GREAT THINGS TOGETHER.

### Gain access to hydrogen safety expertise

Connect with the **Hydrogen Safety Panel (HSP)** of experts who are supporting the safe design, building, operating, maintaining, and supplying of hydrogen systems all over the world. Enjoy discounted services such as:

- Design reviews
- Hazard analysis support
- Facility/site safety reviews
- Outreach

### Participate in premier hydrogen safety training

From webinars to eLearning courses to credentials or custom designed, on-site instructor led courses, CHS offers a robust suite of educational resources to support the safe handling and use of hydrogen across applications in the energy transition.

- Discounted pricing on the **CHS Fundamental Hydrogen Safety Credential**
- Discounted pricing on **hydrogen safety courses and events**
- Free access to all our archived **webinars**

### Take part in an exclusive community committed to a safe and sustainable future

Take a seat at the table with like-minded industry leaders committed to safely harnessing the benefits of hydrogen.

- Connect with over **100 member companies**
- Participate in CHS prioritization activities and working groups
- Gain access to resources such as CHS Incident Reports, **podcasts, publications, and newsletter content**
- Attend monthly member meetings and receive special pricing for CHS's annual conference

**TO LEARN MORE**

## Be a part of CHS and...

- **Eliminate** misconceptions and focus on safety
- **Connect** with a community that enables the safe and timely transition to hydrogen and fuel cell technologies
- **Collaborate** with a global hydrogen safety community
- **Access** resources to remove barriers and manage risk
- **Increase** knowledge and expertise

**TOGETHER**  
**WE CAN...**

**CHAMPION**  
hydrogen safety best  
practices worldwide

**EMPOWER**  
stakeholders and the  
workforce

**ENSURE**  
the safe and timely transition  
to hydrogen and fuel cell  
technology

**YOUR ORGANIZATION IS  
CRITICAL TO THIS VISION.  
LET'S DO IT TOGETHER.**
