

Doing Business at Pacific Northwest National Laboratory (PNNL)

RICHLAND CAMPUS CONSTRUCTION

The Pacific Northwest National Laboratory is one of the Department of Energy's leading centers for scientific discovery in chemistry, data analytics, and Earth science, and for technological innovation in sustainable energy and national security. As a Department of Energy Office of Science national laboratory, we are dedicated to competitively procuring our supplies and services to the best of our ability in a cost-effective and timely manner as well as supporting DOE's small business goals. In this session of the PNNL Small Business Program Seminar Series, Doing Business with PNNL, come learn about the upcoming planned construction projects at the PNNL-Richland campus and find out how to better do business with PNNL. Experts from Acquisitions, Construction Management, Subcontract Management and Environment, Safety & Health will be on hand to present valuable information regarding requirements, security infrastructure, and the Hanford Site Stabilization Agreement to better prepare you and your business for partnering to be a construction prime or subcontractor with PNNL.
